PROFESSIONAL SUMMARY

Results-oriented Computer Science graduate with hands-on experience in data analytics, machine learning, Python, SQL, and Excel. Proven ability to extract insights from large datasets, build predictive models, and visualize trends to support data-driven decision-making. Seeking a Data Analyst role at American Express where I can apply analytical skills to drive customer experience, risk management, and business intelligence initiatives.

EDUCATION

BE - Computer Science and Engineering <i>CSI Institute of Technology (Anna University), Tamil Nadu</i>	2021 - 2025 <i>CGPA: 7.78</i>
Higher Secondary Certificate (HSC) <i>Christuraja Matric Higher Secondary School</i>	2020 - 2021 <i>77%</i>
Secondary School Leaving Certificate (SSLC) <i>Christuraja Matric Higher Secondary School</i>	2018 - 2019 <i>71%</i>

TECHNICAL SKILLS

Programming & Scripting: Python (Pandas, NumPy, Scikit-learn, Matplotlib), SQL, HTML, CSS
Data Analytics Tools: Microsoft Excel (Pivot Tables, VLOOKUP, Charts, Formulas), Google Colab
Machine Learning: Supervised Learning, Multi-Layer Perceptron (MLP), Data Preprocessing, Model Training
Data Visualization: Matplotlib, Excel Charts, Dashboard Design
Databases: SQL – queries, data retrieval, data management
Soft Skills: Analytical Thinking, Problem-Solving, Communication, Teamwork, Attention to Detail

INTERNSHIP EXPERIENCE

Data Analytics Intern <i>ALO Info-Tech Technologies, Nagercoil</i> - Collected, cleaned, and analyzed large datasets to identify patterns and generate actionable insights. - Built data pipelines using Python (Pandas, NumPy) for automated data processing and reporting. - Created data visualizations and dashboards to communicate analytical findings to stakeholders. - Validated data quality and ensured accuracy of analytical outputs. - Awarded Certificate of Achievement for successful completion of the Data Analytics Internship.	2025
Web Development Intern <i>Code Bind Technologies, Chennai</i> - Developed and maintained web pages using HTML and CSS, ensuring responsive and user-friendly design. - Collaborated with team members to deliver front-end features on time. - Gained experience in structured content layout, UI/UX principles, and version management.	2023

PROJECTS

Social Media Forensics - Cyberbullying Detection Using Neural Networks - Built a machine learning model in Python to detect cyberbullying messages on social media platforms using a Twitter dataset. - Applied neutrosophic logic to handle uncertain and ambiguous text inputs, improving model robustness. - Implemented a Multi-Layer Perceptron (MLP) algorithm using Scikit-learn, achieving accuracy superior to traditional classification methods. - Performed end-to-end data analytics pipeline: data collection, preprocessing, feature engineering, model training, and performance evaluation. - Tools: Python, Google Colab, Pandas, NumPy, Scikit-learn, Matplotlib.	2025
E-Commerce Web Application - Designed and developed a fully functional static e-commerce website using HTML and CSS. - Implemented responsive product grids, navigation menus, and cart simulation for an interactive user experience. - Focused on accessibility, clean layout design, and cross-device compatibility.	2024

ACHIEVEMENTS & CERTIFICATIONS

- Certificate of Achievement – Data Analytics Internship, ALO Info-Tech Technologies (2025).
- Internship Completion Certificate – Web Development, Code Bind Technologies, Chennai (2023).
- Developed an ML-based cyberbullying detection model outperforming baseline classifiers in accuracy.
